

Dispensers

APPLICATION:

This Stainless Steel Hands-Free Hand Sanitizer Dispenser is designed to be used in food preparation & medical facilities. The Hands-Free design eliminates cross-contamination and this dispenser is suitable for wet or dry environments.

MATERIAL CONSTRUCTION:

Our free standing foot operated Hand Sanitizer Dispenser is constructed from heavy gauge T-304 Stainless Steel. Holds a 1 gallon pump style container of your favorite hand sanitizing liquid (not included). Features two-position bottle height adjustment. This unit will arrive fully assembled - ready to use.

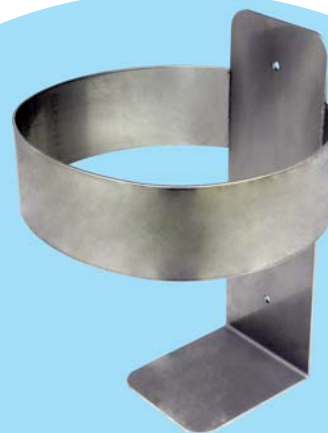

Model shown: SN101027

APPLICATION:

Our Stainless Steel Wall Mount Holder is used for dispensing soaps or liquids. Designed to mount to a vertical wall (hardware not included) and can be used in wet or dry environments.

MATERIAL CONSTRUCTION:

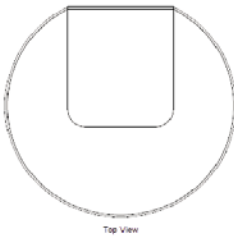

Constructed from heavy gauge T-304 Stainless Steel. This unit holds a 1 gallon pump style container of your favorite hand soap or liquid (not included). Unit is fully welded and easy to clean. Ships fully assembled - ready to use.
