

Side by Side Tote Dolly

MATERIAL HANDLING APPLICATION:

Used in Bakeries, Grocery Stores, Restaurants, Deli's and meat processing plants for material handling and storage. Designed for storage under work table and to keep from having to lift heavy totes above the waist. These single and multi level Side by Side Tote Dollies are available in Stainless Steel or Aluminum, Fully Welded or Knocked-Down. Knock-Down version will save on shipping and handling charges and includes tool needed for easy assembly. Sold without Totes.

AVAILABLE OPTIONS:

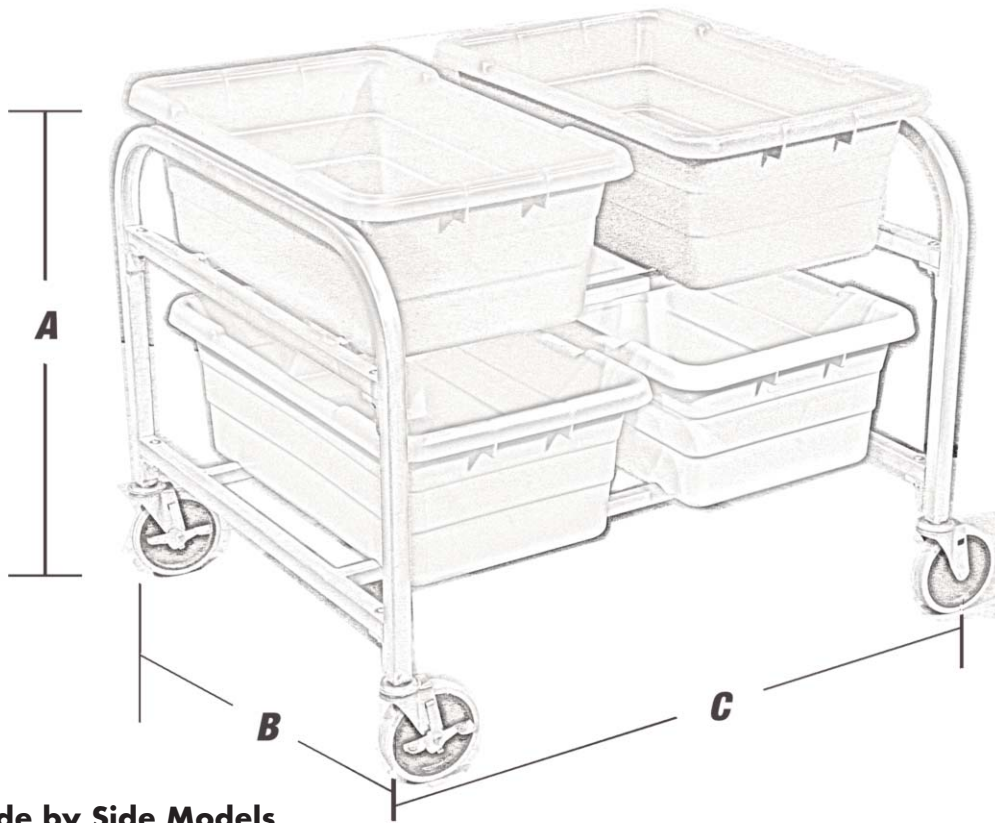

» Plastic Totes, Lids and Tote Liners are sold separately.

MATERIAL CONSTRUCTION:

All our Tote Dollies are manufactured with heavy duty 1" square tube and are stable for storage or transportation of 16" x 25" x 8-1/2" Totes. Your choice of rustproof material: Stainless Steel or Aluminum. All are equipped with 5" swivel mold-on-rubber casters (2 with brake, 2 without brake).
